

AFSRR RISER & OPTIONAL LID

APPLICATIONS

AFS Risers are designed to facilitate easy access to the septic tank, whether in gravity or pumping type systems. The AFS Risers are ideally suited for attaching to the Orenco Systems, Inc. FRP septic tanks; however, AFS Risers are easily adapted to concrete tanks with tank adapters and bolt down kits. AFS Risers not only provide access to the tank, but also ensure watertight connections to the tank to prevent infiltration or exfiltration, when used in conjunction with the tank adapters and bolt down kits. Available in a wide range of heights, the AFS Risers and components are perfect additions to your septic needs.

SPECIFICATIONS

Riser Pipe Material:	24" PVC KOR FLO™ Riser Pipe
Access Cover Material:	FRP encapsulated wood core with Neoprene gasket with tamper resistant stainless steel anchors and 2500 lb wheel load rating
